

Removable and Restickable

# ImageStix™

Create your own Peel & Stick Designs!

Perfect for Home, School, Office and Arts & Craft!

ImageStix™ will give you beautiful reproductions that can be placed on any smooth surface – and repositioned at any time. Its versatility is only limited to your imagination!

ImageStix™ is made of a rubber resin material specifically designed for use in inkjet & laser printers. Its semi-glossy surface produces a brighter, sharper image. ImageStix™ has much more longevity than paper and won't wrinkle as easily. ...unlike traditional stickers ImageStix™ can be removed and reused!

### Product Features and Benefits:

- Produces photo-quality, sharp and colorful images.
- Bright Sheet Color resulting in beautiful results
- Use on both Inkjet & Laser printers
- Self-Adhesive, Removable & Restickable
- Water, Steam & Heat Resistant

- No additional software required.

Everything you need for lots of creative fun - a perfect tool for home, school, office and crafts!

Use in virtually any inkjet or laser printer.

ImageStix™ is made of a rubber resin material specifically designed for use in inkjet and laser printers. Its matte/semi-glossy surface absorbs the ink with optimal color saturation and dries quickly for brighter, sharper and greater image reproduction. ImageStix™ has much more longevity than paper. Also under direct sunlight, regular paper will wrinkle, crumble or shrink but ImageStix™ will endure much better.

ImageStix™ will give you beautiful reproductions that can be placed on any smooth surface – and repositioned at any time. Its versatility is only limited to your imagination!
